The crossword puzzle grid is 10 columns wide and 10 rows high. The central intersection is marked with an 'X'. The grid contains the following colored squares:

- Green:** A vertical 5-letter word in the 5th column, starting from the 2nd row. A green square is also in the 3rd row, 7th column. A green arrow points down from the 3rd row, 7th column.
- Yellow:** A horizontal 5-letter word in the 2nd row, starting from the 1st column. A yellow square is also in the 1st row, 1st column. A yellow arrow points right from the 1st row, 1st column.
- Red:** A horizontal 5-letter word in the 3rd row, starting from the 6th column. A red square is also in the 3rd row, 10th column. A red arrow points left from the 3rd row, 10th column.
- Blue:** A vertical 5-letter word in the 5th column, starting from the 4th row. A blue square is also in the 10th row, 4th column. A blue arrow points up from the 10th row, 4th column.

Four 2x2 colored squares are shown as separate pieces around the grid:

- Yellow 2x2 square (top-left).
- Green 2x2 square (top-right).
- Blue 2x2 square (bottom-left).
- Red 2x2 square (bottom-right).
